

GREGORY MICHAEL MILLER

2002 North Mayberry • Mission, TX 78572

affdtm@gmail.com • (956) 369-0838

EXPERIENCE:

04/04 – 05/09

Kellogg, Brown, and Root (KBR)

Senior Vector Control Specialist

Camp Scania, Southern Iraq

- Led the managing, planning and executing all vector control services supporting KBR and military personnel (both resident and transient) in CSC Scania.
- Developed and implemented all pest control and preventative maintenance services procedures for Scania and the outlying camps.
- Created inventory management tracking and controlling techniques and procedures.
- Maintained all Quality Assurance records for the company and coordinated Federal Compliance Audits.
- Authored and delivered educational presentations and programs to both civilian and military personnel. Topics included regional animals, insect seasons, and diseases associated with pest and feral animals.
- Provided remediation services for pest and diseases-causing organisms.
- Conducted all research concerning regional insects and animals in order to ensure proper health and wellness for the soldiers and civilian contractors. Armed clients with knowledge eliminating their fears and phobias of different indigenous organisms thereby ensuring maximum productivity.
- Managed the creation of public relations techniques and procedures promoting a positive work environment between KBR and the military personnel on base.

11/03 – 04/04

Vector Control Specialist

Camp Cedar, Southern Iraq

- Provided vector control services supporting KBR and Military personnel (both resident and transient) in CSC Cedar.
- Collaborated with vector control personnel in developing and presenting animal education classes for military personnel.
- Maintained daily and monthly bookkeeping records and coordinated inventory control management.

08/01 – 09/03

Oak Wilt Specialists of Texas, Inc.

Wimberley, TX

Manager, Tree Injection Division

- Managed the injection of all oak trees with fungicide eliminating the lingering effects of Oak Wilt (*Ceratocystis fagacearum*) and preventing the spread to susceptible trees.
- Installed Oak Wilt suppression trenches in order to prevent further spread of the disease.

01/99 – 08/01

United States Department of Agriculture (USDA) – Agricultural Research Service - Southern Crops Research Laboratory

USDA Research Assistant (GS 5-1, 5-2)

College Station, TX

- Assisted in olfactometer experiments and the development of a species-specific insecticide for the Cotton Fleahopper (*Pseudatomoscelis seriatus* (Reuter)).
- Researched the Boll Weevil and maintained a greenhouse producing flora for experiments.

05/96 – 08/97

USDA Crop/Insect Scout and Research Assistant

College Station, TX

- Collected and processed data to aid in Western Corn Rootworm, Boll Weevil, K.I.S.S. Sampler, and “Electro Static” research.
